

Nature Trail

Keep this in the car and play each time you go out. It's the Nature Trail you can do without getting your feet dirty. Spot any of mother nature's finest creations on your sheet and see how many points you can get. Play inside the car and out if you stop for a break.

How it works

1. Everyone gets a Nature Trail sheet (see below)
2. When you get in the car, look at your sheet and see how many of them you spot out of your car window, or when you stop for a break
3. When you see one shout out loud and point it out to the others, then mark it off your sheet
4. At the end of each journey add up your points and see how well you've done

Pig

Field Mouse
